### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

Amendment filed on December 23, 2009 has been acknowledged. Claims 98-104 are pending.

#### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. **Claims 98-104** are rejected under 35 U.S.C. 102(b) as being anticipated by Keefe (US 5573727).

Keefe teaches an automated slide staining apparatus. The method comprises introducing a first at least one slide (21) into a stainer (12), the stainer being configured to process the first at least one slide using a plurality of desired slide process operations comprising one or more robot tasks (applying a reagent), creating a robot task list (staining procedure) of the one or more robot tasks (such as movement of the slide rack (21) as disclosed in Keefe) for the stainer (12) and processing the first at least one slide according to the robot task list (staining procedure) Keefe further teaches during processing of the first at least one slide according to the robot task list, receiving a second at least one slide into the stainer (12) (refer to Col. 4, Lines 30-61) and adaptively rescheduling the robot tasks of the robot task list to create an altered robot task list of the one or more robot tasks for the stainer. (Refer to Col. 5, Lines 19-25) Keefe further teaches comprising the step of discontinuing processing of the first at

least one slide according to the robot task list and commencing processing of the first at least one slide according to the altered robot task list. (critical and non-critical as disclosed in Keefe) (refer to Figures 6A-6C)

### ***Response to Arguments***

3. Applicant's arguments with respect to claims 92-97 have been considered but are moot in view of newly submitted claims 98-104. Refer to rejection above.

### ***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
